

Announcement

4th INDO-US WORKSHOP ON FLOW CYTOMETRY

Application of Flow Cytometry in Cancer Diagnosis and Therapy

2nd - 6th February, 2004

The 4th Indo-US Flow Cytometry Workshop will focus on emerging techniques in Flow Cytometry with reference to cancer diagnosis and therapy. The program amalgamates applications of Flow Cytometry in basic and clinical cancer research. The lecture series will acquaint the participants with novel approaches, newer developments in instrumentation, applications and experimental strategies in Flow Cytometry along with Hands-on-training. The workshop would provide a forum for interaction with the experts in the field.

TOPICS

Flow Cytometry - Principles & Applications
Flow Cytometry - Instrumentation - Newer Developments
Immunophenotyping of Leukemias & Lymphomas
Flow Cytometry of solid tumors
Apoptosis
Mechanisms of action of Anticancer drugs
Cell Cycle
Metastasis
Tumor Markers
Tumor Immunology
Cell Signalling

Registration Fee

Students up to age 25 yrs. Rs. 10,000/-
General Rs. 12,000/-
Industry Rs. 15,000/-

Students must send application certified by
Head of the Department/Principal/Director of Institute

ORGANISING COMMITTEE

National

Shubhada Chiplunkar
Organising Secretary

Surekha Zingde
Gopal Pande
Satyajit Rath
K.B.Sainis

International

Awtar Krishan
Organising Secretary

Scott Cram
Vincent Shankey
Ravi Gupta
Mehardad Nadji

SPEAKERS

Shubhada Chiplunkar, India
Gopal Pande, India.
Satyajit Rath, India
A. Dasgupta, India.
K.B. Sainis, India.

Awtar Krishan, U.S.A.
Scott Cram, U.S.A.
Vincent Shankey, U.S.A.
Ravi Gupta, U.S.A.
Mehardad Nadji, U.S.A.
