MEDIA COVERAGE OF THE 26th INDO-US FLOW CYTOMETRY WORKSHOPS, 11th – 13th Feb 2025

Workshop on flow cytometry advancements

Thiruvananthapuram: The 26th Indo-US flow cytometry workshop, jointly organised by Sree Chitra Tirunal Institute for Medical Sciences and Technology and the Trust for Education and Training in Cytometry, was inaugurated by VSSC director S Unnikrishnan Nair, on Tuesday.

The three-day workshop focuses on flow cytometry (test analysing cells) and its applications in biological sciences and clinical diagnostics. A one-day continuing medical education programme was also organised to cater specifically to clinicians. It drew over 120 participants from across the globe.

The workshop serves as a platform for hands-on training, expert-led discussions and interactive sessions on the latest advancements in the field. Participants will explore cutting-edge techniques, data analysis strategies and novel applications in both research and clinical settings.
